

ArchLou IT Workshop: Information Sharing for Parish / School IT Support Personnel

PLEASE PASS THIS INFORMATION ON TO YOUR IT SUPPORT PERSONNEL!

- Do you support information technology (IT) for an Archdiocese of Louisville parish or school?
- Have you implemented any IT solutions that others would benefit from knowing about?
- Do you face constrained resources (people, money, time) that hinder getting the job done?
- Do you want to meet and discuss common IT issues with your fellow Archdiocese of Louisville organizations?

If you answered “yes” to any of those questions, then you should attend the “ArchLou IT Workshop: *Information Sharing for Parish / School IT Support Personnel*” workshop on **Saturday, August 13, 2011**, from 9am-noon! An optional free lunch will follow the workshop for further discussion, Q&A, and general networking.

This workshop will be a discussion forum for IT support personnel, by IT personnel. Expect discussions to be fairly technical in nature, ranging from high-level IT strategies (including experiences with vendors and products) to low-level tools and technologies.

We want to hear from you! Sign up for a 20-minute speaking slot to share IT successes (and failures!) from your organization, or just come to listen.

Register online by Friday, August 6, 2011 at the QR code to the right, or go to this site: <http://www.churchofepiphany.com/workshop/it>

The workshop will be held at the

Church of the Epiphany
914 Old Harrods Creek Dr
Louisville, KY, 40223

Plenty of free parking is available.

Saturday, August 13, 2011 9am-noon
